V21.144, V21.146

*Capri* anti-perspirant actuator with directional insert and overcap. Suggested for aluminium can with ogival shoulder, Ø max 45 mm. Can use all Coster directional inserts. The overcap can have two different surfaces: glossy or matt.

**V21.144:** version for valves with stem Ø 3.9.

**V21.146:** version for valves with eurostem Ø 3.3.

## FEATURES

*Capri* is a two piece spray actuator with overcap suitable for 1" male aerosol valves.

It consists of a finger pad with integrated spray channel, conveniently fitted within the collar.

The finger pad is ergonomically designed with ribbed finish for an easy and comfortable actuation.

### Overcap

*Capri* is also equipped with an overcap, available either with matt or glossy surface.

## UNLIMITED COLOUR COMBINATIONS

*Capri* has a universal and unisex look which makes it easy to adapt and customize to a variety of products.

Finger pad, collar and overcap can all be supplied in any colour, allowing unlimited combinations.
