PERFUMERY PUMPS COLLECTION

“

*How do you sleep? With pyjamas or nightgown?
Neither! I sleep only in two drops of French perfume!*

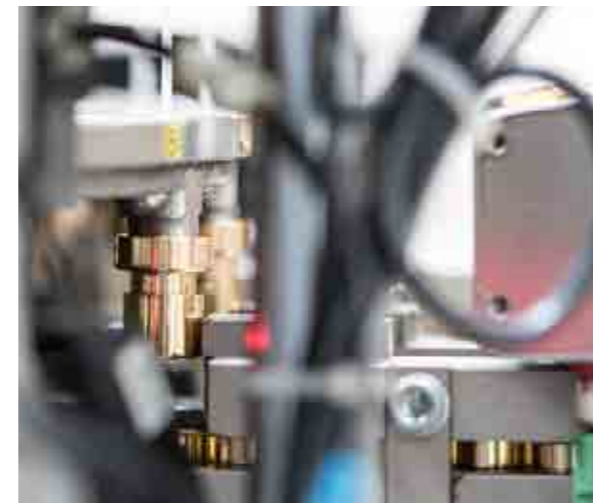

Anita Ekberg · La Dolce Vita · Federico Fellini 1960

”

PERFUMERY PUMPS

With decades of industrial excellence Coster has developed three categories of perfumery pumps Lily, Iris, and Ivy to satisfy every packaging need and preserve every note of the fragrance.

- 1** Centre of Excellence · Torelló (Spain)
- + 4000 sqm** Dedicated to the perfumery pumps production
- + 50** People in designing and manufacturing processes
- 3** Production sites: Spain, India, Argentina
- 4** Fully equipped laboratories
- 1** Global supply chain management

PRE-COMPRESSED PERFUMERY PUMP · SMOOTH ACTUATING FEELING

LILY

PERFORMING & DISCRETE

With excellent interaction of the components, the Lily, born as “MHP · MHPR”, grants an optimal and customizable fine mist with a smooth actuating feeling. Lily can also be supplied with a semi-transparent “Crystal” dip tube for a more premium look.

IRIS

QUALITY & FINE MIST

Iris, known as "MPE · CMPE" is the Coster's pre-compressed perfumery pump with the widest range of dosages up to 120 µl. Manufactured in three continents, Iris is the "global citizen" of Coster's perfumery portfolio. Production is available at three locations: Argentina, Spain and India.

With its crimp-less mechanism the Iris "EASY-FIT" has all the best features of the Iris along with the industrial advantages of the easy closure which allows a simplified assembly of the pump (no crimping).

THE MOST LONG-RUNNING COSTER PERFUMERY PUMP · COMPACT DESIGN

IVY

EASY & RELIABLE

The most long-running Coster's perfumery pump is Ivy, already known as "CPS · CPR · GCPS". Its small body guarantees a compact design and its actuators in plastic or covered with metal finish grant a full customisation. Specifically designed for the mass-market, it is the preferred option for competitiveness and reliability.
