PROXIMITY

- Headquarters & main plants
Machinery Division
- Manufacturing plants
- Offices
- Anodization services (Catidom)

Product range:

- ◇ Fully automatic lines (from 30 to 500 cans per minute)
- ◇ Semi automatic / lab scale equipment
- ◇ Ancillaries machines

Key figures:

- ◇ Manufacturing up to 10 complete lines / year
- ◇ 60+ employees
- ◇ 10+ Design engineers
- ◇ 8.000 sqm dedicated to production, lab and R&D
- ◇ Demo & training area

PRODUCT OFFER

540 SERIES

Best in class of Coster semi-automatic machines specifically developed for Pharma and Food industries, suitable for filling of products, valves' crimping, filling of propellants

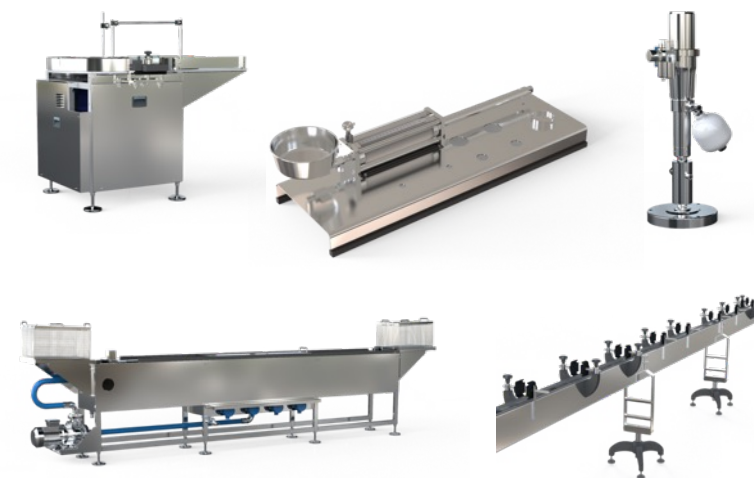

- Top production speed 20 CPM (depending on process cycle and operators skills)
- Possibility of two head positions
- Atex compliant
- Available fully electronic or pneumatic

530 SERIES

Coster best-seller semi-automatic machines for technical and cosmetic applications, suitable for filling of products, valves' crimping, filling of propellants

- Top production speed 20 CPM (depending on process cycle and operators skills)
- Possibility of two head positions
- Atex compliant
- Fully pneumatic

SEMI-AUTOMATIC ANCILLARIES

Ideal complements to semi-automatic lines

- Semi-automatic water test bath
- Unscrambling and accumulating tables
- Conveyors

INDEXING MACHINE

PRODUCT OFFER

COSTER GROUP · MACHINERY DIVISION

53eC

Best in class of triple/double pitch indexing machines suitable for any type of operation, from filling of products with multiple stations, to filling of propellants

- **Top production speed 120/90 CPM (triple/double)**
- **Automation with brushless motors**
- **36 head positions**
- **Atex compliant**
- **Industry 4.0 & IoT ready**

PRODUCT OFFER

52SM

Best seller single/double pitch indexing machines suitable for any type of operation, from filling of products with multiple stations, to filling of propellants

- **Top production speed 50/85 CPM (single/double)**
- **24 head positions**
- **Atex compliant**
- **Industry 4.0 ready**

6AVG

Compact entry level and complete single indexing machine for products and propellants filling

- **Top production speed 45 CPM**
- **18 head positions**
- **Atex compliant**
- **Industry 4.0 ready**

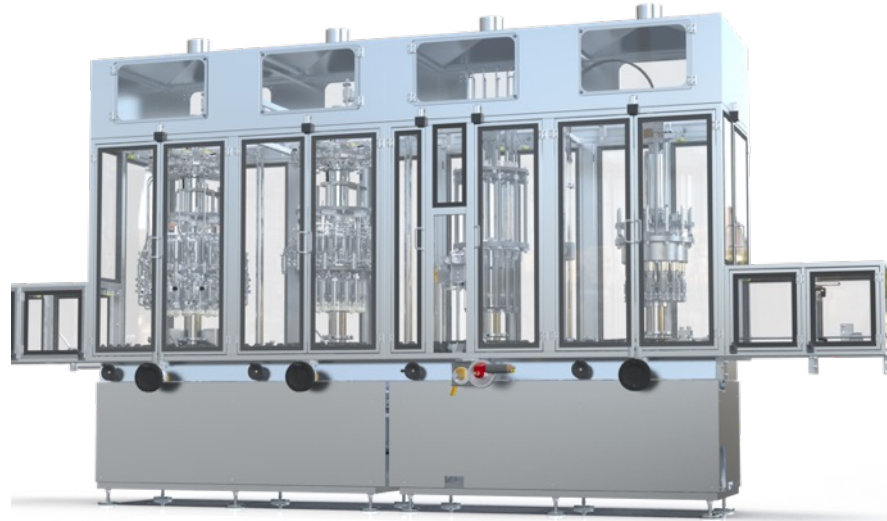

MULTI-KIT

Ideal complement to 6AV and 52SM machines for actuators / caps / pumps application and the handling of propellant filling

- **Top speed 45 CPM**
- **12 head positions**
- **Atex compliant**
- **Industry 4.0 ready**

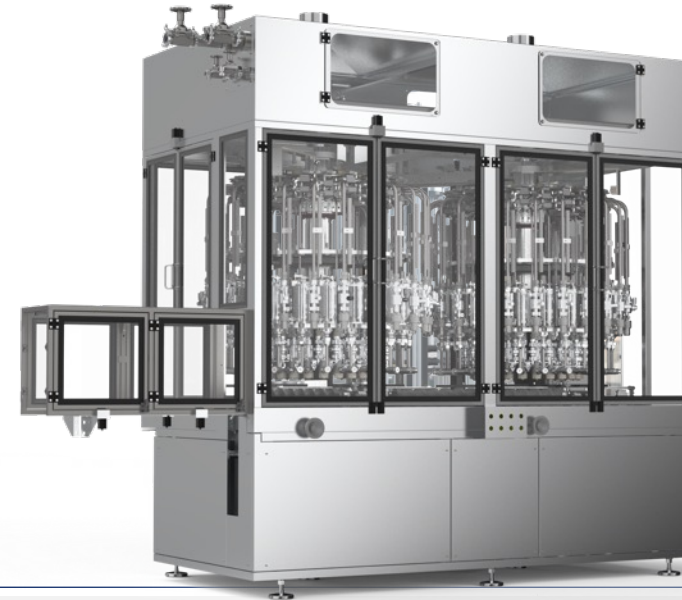

PRODUCT OFFER

RTV series

State of the art four columns rotary machine for products, valves placing and crimping, combined units:

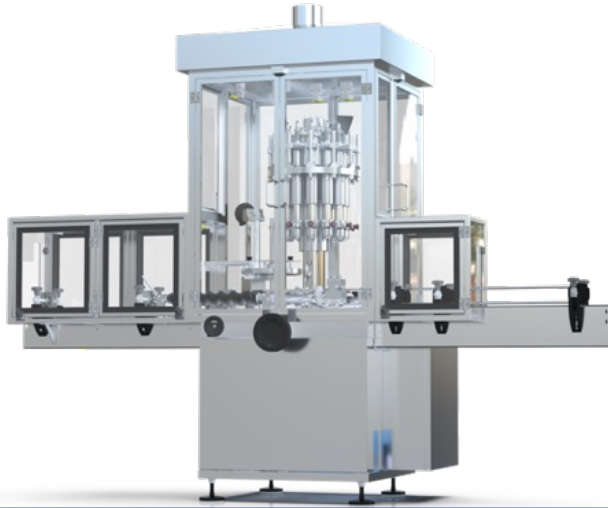

- Top production speed 500 CPM
- Available with 6, 8, 12, 16 or 24 heads
- Atex compliant
- Industry 4.0 ready

State of stand alone rotary machines for products, valves placing and crimping, propellants filling

- Top production speed 500 CPM
- Available with 6, 8, 12, 16 or 24 heads
- Atex compliant
- Industry 4.0 ready

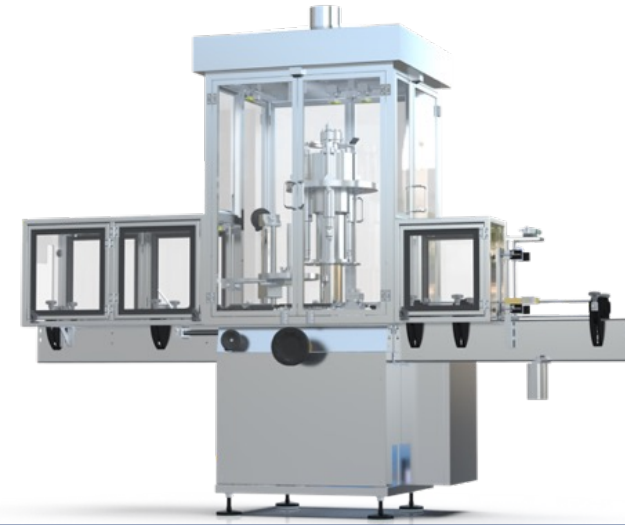

PRODUCT OFFER

CAP series

Rotary machine for the handling and placing of standard caps, special and oriented caps, spray caps

- **Top production speed 500 CPM**
- **Available with 6 ,12 or 16 heads**
- **Atex compliant**
- **Industry 4.0 ready**

MTR series

Rotary machine for the handling and placing of all the type of actuators including "L" shape actuators

- **Top production speed 500 CPM**
- **Available with 6, 8, 12 or 16 heads**
- **Atex compliant**
- **Industry 4.0 ready**

PRODUCT OFFER

Complements to complete automatic lines

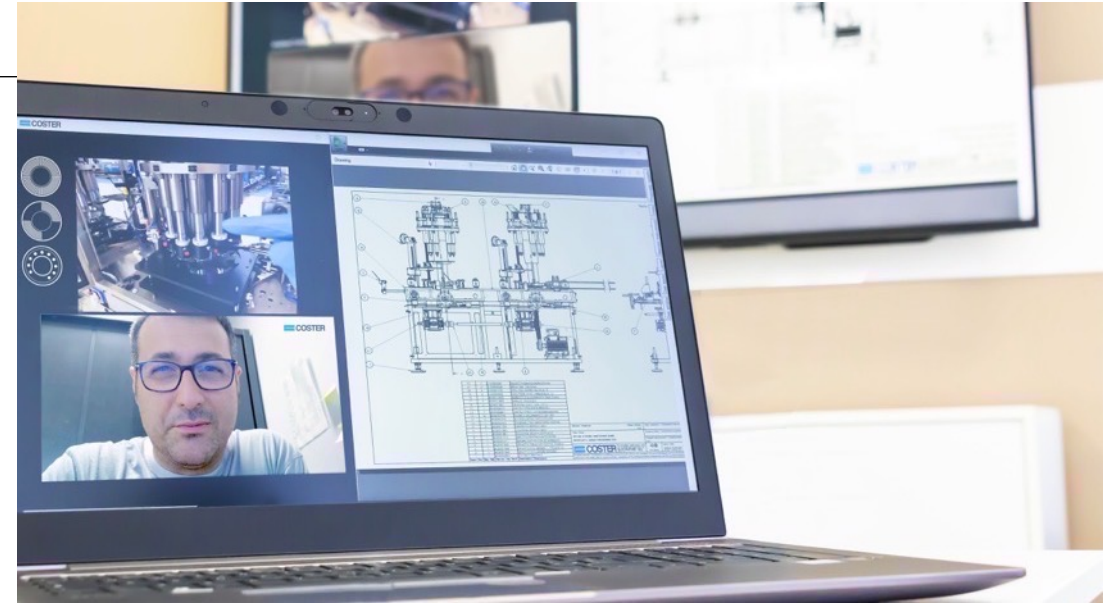

- **Water test bath**
- **Unscrambling and accumulating tables**
- **Conveyors**
- **Gas-house**
- **Product and propellant pumps**
- **Sorting systems**
- **Gel mixing systems**
- **Pressure control system**
- **Micro leakages detection system**
- **Labelling / Tampering system**
- **Vision system**
- **Weighing system**
- **In-line printing system**
- **End of the line**
- **Robotized cans handling system**
- **SCADA system & Industrial IoT**

SERVICE PRODUCT OFFER

Coster has a wide presence worldwide thanks to its global footprint and thanks to the more than 10 offices and factories all over the world.

The Coster Service team lead is based in Pero while local presence is ensured in many countries to grant customers rapid and effective solutions to any problems.

- Spare Parts
- Technical Survey → Coster CTS Service (Customer Technical Survey)
- Maintenance contracts
- Assistance to production services
- Remote monitoring and support
- Trainings
